

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as a sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure "on right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

HIGH PRICES WILL PREVAIL

Trend of Rural Population to the City Causes This.

WASHINGTON, Dec. 26.—"The present high prices for farm products have come to stay; the rural population is playing out; the present census, if it classes the unincorporated villages as towns, will show between 60 and 65 per cent. of population living in towns," declared Representative Champ Clark, of Missouri, the minority leader of the house, today. "At the present rate, in twenty years the United States will cease to be an exporting nation for agricultural products, except for cotton."

"One of the principal causes of the high prices for farm products is the world movement of people toward the towns and cities. While a few people in towns and cities have gardens and raise chickens and occasionally pigs, practically the entire town and city population are non-producers of anything to eat, but are consumers only. For the first time, last year, Argentina beat us in exporting corn, and Argentina and Brazil are now fighting to take the frozen meat trade from us."

Well, Christmas is past and gone. I hope everybody had a good time. Everything passed off all right here, as far as I know. It snowed so that ya writer had to stay at home all day, and I think most everybody else had to stay pretty close to the fire. The snow is about four inches deep. The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by indigestible food, the blood and heart are directly affected. Then dullness, natural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."
